

Mike Lindell

Remote IT Consultant

Yakima Valley, Washington [Phone] [Email] hisworkmanship.github.io

PROFESSIONAL SUMMARY

Seasoned IT professional with over 45 years of experience in the computer industry, specializing in remote technical support, corporate IT consulting, network administration, and AI integration. Proven track record of delivering fast, reliable, fully remote support to small businesses and individual clients across a wide range of industries. Known for patience, professionalism, and the ability to translate complex technical issues into clear, actionable solutions. Long-term client relationships spanning 10-15+ years are a hallmark of the service I provide.

PROFESSIONAL EXPERIENCE

Owner & Principal IT Consultant 1980s - Present

Lindell and Associates — Yakima Valley, WA | Fully Remote

- Provide comprehensive remote IT support to small businesses and individual consumers across Washington State and beyond, eliminating the need for on-site visits while maintaining fast response times.
- Advise and support clients through complex hardware and software installations, system migrations, and infrastructure upgrades.
- Deliver corporate-level IT support to real estate firms, law offices, healthcare providers, retail operations, and property management companies.

- Conduct one-on-one and group software training sessions tailored to each client's specific tools and workflows, including onboarding clients to AI-powered productivity platforms.
- Perform PC and Mac tune-ups, malware removal, performance optimization, and hardware troubleshooting remotely using industry-standard remote access tools.
- Design, implement, and troubleshoot home and business networks, including security hardening and access management.
- Educate small business clients on cybersecurity best practices, data protection, and risk reduction.
- Maintain 10-15+ year client relationships through consistent, dependable service and prompt turnaround on all support requests.

INDUSTRIES SERVED

Real Estate · Healthcare · Legal / Law Offices · Retail · Property Management · Startups · Entrepreneurs · Remote Workers · Warehouses · Consultants · Remote Staffing

Notable Client Organizations: Keller Williams · Berkshire Hathaway Home Services · Almon Realty · Talbott Law LLC · Miner Rental Properties LLC

SELECTED CLIENT TESTIMONIALS

"Mike is the 'top of his field' as a computer tech specialist. His computer knowledge is far beyond most and can work through issues with ease. He is super-efficient, trustworthy, and professional. I have used Mike for over 15 years and would only use Mike as my tech!"

— **Diane Miner, Miner Rental Properties LLC**

"Mike has been my trusted IT consultant for over 15 years. Mike's problem-solving skills and unmatched computer expertise have been invaluable to me."

— **Ike Purdy**

"He is always quick to respond, remoting into my computer and fixing the problem or task at hand, saving the firm time and money. Mike has my highest trust and respect."

— **Lana Hovland, Talbott Law LLC**

"Mike has been helping me with my computer upgrades and repairs for over 10 years now. He is a lifesaver! I don't know what I would do without Mike!"

— **Lanette Headley, Keller Williams**

KEY STRENGTHS FOR REMOTE POSITIONS

- **100% Remote Delivery** — All client work is performed remotely; deeply experienced with remote access tools, virtual collaboration, and asynchronous communication.

- **Rapid Response** — Consistently praised for prompt turnaround and quick resolution of technical issues.
- **Clear Communication** — Skilled at explaining technical concepts to non-technical users without jargon or pressure.
- **Self-Directed** — Independently manages a full client portfolio, scheduling, and project delivery with no oversight required.
- **Trusted Advisor** — Long-term relationships built on reliability, honesty, and results.
